- Alex,

This is Justin Meyer from 1626 Massachusetts Ave SE. I wanted to send you a follow up email on behalf of myself and my several neighbors who have been plagued by the nuisance that is 1622! **We can't thank you enough for coming through on this project.** Earlier in the summer we really appreciated the front yard being cleaned up by the city. Since then, the neighbors have taken it upon themselves to keep that yard tamed. I assume that your efforts today will yield the same result with the backyard. **Looks like a good partnership between the city and the residents!**

Also, thank you for taking the wise step of having the remaining windows in the rear boarded up. This will ensure that no one will be sneaking in to do any illicit activities.

So, thank you and your team for following up with the neighborhood concerns!

- Hi Catrina,

I just spoke to Josh Hopkins. It looks like the owner is going to put up a fence!

On behalf of the entire neighborhood, THANK YOU for all of your work on this.

Little by little, we are all making our community a better place, but this particular undertaking simply would not have been possible without your efforts.

Cheers,

Mike

- Dear Mr. Hopkins and Rotan: Members of the Kingman Park Civic Association **wish to thank the Mayor for his help in obtaining a meeting place for our recent Holiday Celebration and for the shopping bags** that will help defray the costs associated with the plastic bag tax. Our members will use the bags to help improve the environment. We look forward to seeing the Mayor at one of our future meetings, **but in the meantime, please thank Mr. Fenty.**

- I think my interview today for an IT Project Manager term position with OCTO went well. It was with David Strigel, Program Manager over CapStat. It appears no decision has been made yet, **but I do sincerely thank you for your effort in this regard.**
